

GLOBAL WATER
RELIABLE • RENEWABLE • REUSABLE

MEMORANDUM

TO: SETH KEELER
FROM: GROWTH MANAGEMENT
SUBJECT: SERVICE AVAILABILITY
DATE: 10/2/2006

Both Santa Cruz Water Company and Palo Verde Utilities Company (“Global”) are privately held utility companies providing water, wastewater and water reclamation services to areas in and around the City of Maricopa. As landowners become interested in obtaining these services from Global, we will work together with each landowner to do so.

Global Water and its entities are committed to remaining the long term provider of water, wastewater and water reclamation to not only our current service areas, but to all land within the Maricopa planning boundary. With that in mind, we have master-planned the area, sizing all lines for current and future growth in all areas. Whether you wish to work towards receiving our services in the near future or wait and not utilize the service for years to come, we will be ready to serve.

Should you or your neighbors have any questions or need additional information, please call Jennie Critchfield with Global Water at 623-580-9600 or email our group at growthmanagement@gwresources.com. You can also find more information about Global Water and our services on our website www.gwresources.com.
